A woman and a young girl are walking hand-in-hand on a paved path in a park. The woman is wearing a white short-sleeved shirt and a patterned skirt, and the girl is wearing a light-colored dress. They are surrounded by lush green trees and a street lamp. The scene is bright and sunny.

Access Expert Care worldwide throughout your medical journey!

Have you ever thought what you would do if you had to cope with a serious illness? What is the best recovery plan for you?

How would you know which doctor to go to? Which treatment should you get and from whom? How would you confirm your diagnosis and ensure you are receiving the appropriate treatment? How would you handle different specialist opinions from different disciplines?

Through a partnership with AIA, Teladoc offers third party expert advice, support and assistance along your medical journey -- from diagnosis, treatment through rehabilitation - - the Personal Medical Case Management Services provided by Teladoc will alleviate stress and ensure you are receiving the best possible medical care and support.

What is Personal Medical Case Management (PMCM)?

Personal Medical Case Management is about re-assessing a medical case and providing detailed planning, coordination, implementation, and on-going supervision to ensure the best quality care possible and customer support throughout your medical journey.

What are Teladoc's solutions for you?

- End to end case management to take care of patients' needs along the entire medical journey
- A licensed physician appointed as Physician Case Manager to provide personalised case management
- Expert Medical Opinion to provide validation and confirmation of treatment plan through independent case review by a panel of 50,000+ experts
- Medical Concierge with a targeted match to two treating doctors to help find the right doctor for treatment
- Monitoring and Ongoing support to ensure pro-active support throughout your medical journey.

Upon consensus among doctors, Teladoc will provide you with advice on the optimal and most efficient treatment, personalising your medical journey to ensure that you receive the care you deserve.
